Sznury i profile porowate
Schnurren und poröse Profile
Porous cords and profiles

Nowością w naszej ofercie są profile porowate o przekroju okrągłym oraz prostokątnym. Profile te znajdują zastosowanie wszędzie tam, gdzie są nierówne powierzchnie, występują małe siły nacisku lub niezbędne jest samo dopasowanie.

Die Neuigkeit in unserem Angebot sind poröse Profile mit dem runden und rechteckigen Querschnitt. Diese Profile können überall dort verwendet werden, wo ungleichmäßige Flächen sind und wo es kleine Druckkräfte gibt oder wo die Anpassung selber notwendig ist.

There is a novelty in our offer - porous circular and rectangular profiles. These profiles are used with rough surfaces, small force or it is essential to self-adjust.
